## DRAWING AND PAINTING

**300a ADVANCED STUDIO DRAWING & RELATED MEDIA**

Judy Rossman

The ability to draw is not inherited; it is a learned skill. That ability is enhanced by the development of one's observational skills. Being able to see the basic structure of all objects is the first step (similar to reading music). Through a series of exercises, assignments, and homework, students will strengthen their observational and drawing skills. Composition, value studies, line, texture, and color will broaden their understanding of the drawing process and how that process relates to other media. Class content is provided in a supportive environment with lots of one-on-one instruction. Continuing students welcome.

**300b BASIC DRAWING/BEGINNER TO INTERMEDIATE**

Judy Rossman

This class is for beginners with minimum or no previous drawing experience. The emphasis will be on developing effective observational skills—to see like an artist—by observing the basic structure of one's surroundings. Students will concentrate on a series of exercises to strengthen and reinforce such concepts as composition, light value, line and texture as these relate to the process of graphic expression. The ultimate goal is to broaden student understanding of the drawing process. Individual instruction will concentrate on students' skill level. This class is also available to intermediate/advanced students who may wish to work independently with instruction only as needed.

Christine Bodnar

"Information opens the boundaries of knowledge so we can move forward with a better understanding of ourselves and our art making." This class is for the painter new to pastel or who would like to learn more about this medium. Besides discussing types of surfaces, brands of pastels, and handling of a finished painting, there will be plenty of time to paint. This class will stress a few concepts that serve as the basis for any painting: composition; value recognition; and harmony. Come and learn why pastels are gaining popularity and are more present than ever in galleries and museum around the world.

**312 WATER COLOR—ADVENTURES IN WATERCOLOR AND COLOR THEORY**

New

Tara Connaughton

In this class we will explore watercolor hand-in-hand with color theory and color mixing using a simplified color palette, applicable to all mediums. Through demonstration, discussion, guided hands-on exercises, and fun practice projects, you will gain comfort with the fundamentals of watercolor technique and color mixing. We will look at artworks that illustrate various styles of watercolor painting; we will explore other water-soluble mediums such as gouache and watercolor pencils; and we will look at how these may be combined with watercolor for different effects. This class will follow a methodical approach that is perfect for beginners, and expansive enough to challenge those with some experience with watercolor. Artists looking to sharpen their color mixing

skills and explore a new medium will also find this class rewarding. Homework will be assigned to reinforce classroom content and accelerate the learning process.

**320 INTRODUCTION TO OIL PAINTING**

Dianne Panarelli Miller and

This is a fun class designed to get you painting right away. Class will begin with an informative demonstration to help guide students on beginning a painting. After the demo, the instructor will work one-on-one with students to facilitate improvement at a pace that meets each individual's needs. There will be many interesting still life set-ups, which will be used to explore design principles that relate to the dynamics of composition, color, and the expressive use of materials. While the goal is to help students learn the fundamentals of oil painting technique, there will also be an emphasis on creating paintings that are structurally sound in color and composition. Students at all levels—from the beginner to the advanced artist—will benefit from this class.

**321 FOUNDATIONS OF PLEIN-AIRE PAINTING**

Robert Beaulieu

With the return of Spring, it is time to go outside and paint plein-air (weather-permitting)! This course is focused on the fundamentals of this method of spontaneous on-site landscape painting. Plein-air locations will be selected from the towns of Cohasset, Scituate, and Hingham. Students will learn

the uses of one and two point perspective to emphasize correct proportion and dimension, and atmospheric perspective through the use of color and light values. During inclement weather, class instruction will be based on individual sketches, photographs, and model forms to facilitate composition concepts. A major goal of this class is the creation of picturesque content through the rich pictorial expression of light and shadow, color, and texture. The use of photography as a sketch medium will also be discussed. Individual critiques and concept development will be an integral part of this experience.

In this course we will expand upon the basic concepts and techniques learned in “Drawing and Painting Fusion” with a more direct focus on painting. Building on the indirect painting methods such as “imprimatura”, under-painting, and glazing as a foundation, we will branch out to explore more personal aspects of color, composition and narrative. This course is intended to demonstrate the dynamic relationship between color, composition, and mark-making as essential elements of an artist’s personal vocabulary and ability to tell a story, and express meaningful ideas, while learning the skills necessary for successful artistic expression. This class is also open to intermediate students with an understanding of basic painting skills. **No class May 25.**

## PRINTMAKING

### 342 INTRODUCTION TO PRINTMAKING

New Time

Mehmet Kraja

This beginner to intermediate class introduces printmaking methods, like monotype and intaglio processes, including trace drawing, additive, reduction printing, drypoint, and etching printing techniques on plexiglass plates. Monotype, which utilizes the methods and tools of printmakers and painters, is usually considered the bridge between printmaking and painting. Students will explore the multiple possibilities of creating work using monotypes in a more painterly fashion. They will use ink, brushes and other tools to build works with a freedom unique to this medium. Attention will be paid to

image development and understanding of the process. Through exercises, students will gain confidence and establish a feeling for what can be done with these techniques as a basis for further experimenting on their own. Students will be introduced to the work of contemporary artists and the history/tradition of printmaking. Class sessions will include demonstrations, exercises, independent and collaborative printing, discussions, and critique.

### 343 ADVANCED MONOPRINTING

Esther Maschio

The focus of this course is to further advance individual goals and requires a sound working and recent knowledge of monotype on and off the press, monoprinting, collagraph-platemaking, Solarplate, drypoint, editioning, embossing, chine collé, trace drawing, multi-plate registration, ink handling and application, and cleanup. Experimentation is encouraged as an integral part of the process and includes, for example, collage and over-painting/drawing, using the print as a substrate for the finished work. The experimental atmosphere of this class will be supported by individual and group discussions and collegial interactions. This progressive environment is designed to support and energize individual choices in technique and move the creative process to another level. Class size is limited and there is plenty of time to process ideas. This is not a tutorial class. Multiple tools, varieties of ink, and materials are included in the course fee. Rives BFK print paper is available for sale. Choices are abundant. Students are also encouraged to bring other papers and materials to further enhance their unique art making. **No class May 25.**

### 371 BASIC DIGITAL PHOTOGRAPHY A NEW BEGINNING

Keith Conforti

Learn how to unlock your creativity with your digital camera. This course will focus on the technical aspects of digital photography: proper basic settings, lens selection, image file formats, exposure settings, and developing a digital workflow. ### 374 INTERMEDIATE FINE ART PHOTOGRAPHY—SPECIAL PROJECTS

Stephen Sheffield

Whether you are using a digital SLR or film camera, this hands-on course is about exploring the world of fine art photography. It is the next logical step for those who have already taken SSAC's Basic Digital Photography class, or a comparable basic photography class. It is designed for those who are looking to explore their creative side and personal vision. Experienced artists are also welcome and will find the course as challenging as they desire. We will build on your knowledge and push you to expand your artistic vision. Beyond the exposure, structure and composition of your work, we will address

personal style, artistic intent, creativity, and inspiration. Students can count on in-depth discussions about their ongoing work and look at the work of past and current artists. The intention is for artists of all levels, from film photographers to iPhone devotees, to work with ongoing or individual photographic projects and focus their learning on a subject that most interests them.

## MIXED MEDIA

### 375 THE ALTERED BOOK: EXPLORING MIXED MEDIA

Stephen Sheffield

Don't write in that book! Don't tear the pages! Don't turn down the corner! Have you ever heard a teacher or librarian say those things? In this class we are throwing all that out the window and "breaking the rules." We are turning books into art! We will alter used hard-backed books and turn them into works of art. Your book and its pages will be your canvas as you draw, paint, rip, burn, fold, stamp, and whatever else you can think of. If you like any type of art - collage, scrapbooking, stamping, or mixed media - then you will love making an altered book. The possibilities are absolutely endless for what your altered book can become. By using various coloring mediums, embellishments, and techniques, you can turn your book into a planner, an art journal, a shadowbox, or even into a scrapbook. Throughout the course, students will be exposed to original examples of artists books as well as works by modern masters. Instruction will be based on a weekly progression of the various techniques, procedures and applications required in creating an original altered book. Students will determine the direction and theme they will follow in the production of this artwork.

This hands-on course will introduce you to a variety of skills, from concept development to book design. Rhythm and movement, simple language and exploration of mixed media will be explored. The complex business of publishing will be discussed and informed by professional resources and advice. Collaboration and interaction is encouraged to create a supportive environment for visual artists working with images alone or combined with text. Let your imagination soar while creating a finished picture book dummy with simple words and images dancing together. ### 385 MIXED MEDIA AND COLLAGE

Roger Honey

This class explores the exciting concept of creating a mixed media collage. Reference will be made to the historical developments of paper collage as an art form in the early 20th century by artists such as Pablo Picasso, Georges Braque and Kurt Schwitters, and later artists such as Richard Hamilton, Romare Bearden and Peter Blake of "Sgt.

Pepper's Lonely Hearts Club Band" album cover fame. The term collage comes from the French verb coller "to glue" referring to sticking flat images on a two-dimensional surface, a practice used in China some 2,000 years ago. This class will apply traditional and contemporary techniques to explore relief collage as a mixed media vehicle involving painting, graphics, and sculpture. Images of implied textures and photographic print media will also be considered. Three-dimensional elements such as found objects may be added to build richly nuanced surfaces of light and shade, texture and rhythm. Interested students should consider a possible theme and collection of relevant found objects and graphic material. All are welcome.

## WORKSHOPS

### 404 DESIGNING THE LANDSCAPE

Christine Bodnar

This workshop is for the beginner to intermediate pastel painter. Students will learn the building blocks of painting, focusing on composition, value relationships, and the importance of preparatory studies. Using photos of the landscape for reference, students will learn about effective decision making in designing their paintings. The workshop will begin with a demonstration, followed by individual instruction as needed.

### 411 CREATING COMPLEX WATER COLORS—ONE LAYER AT A TIME

Michael Weymouth

There are many ways to paint a watercolor, from wet-on-wet to dry brush, where every detail is carefully rendered with a small brush. This workshop follows the example of John Singer Sargent's approach to watercolor, which is best described as "spontaneously attacking the paper," but with a well-thought out strategy in hand that maximizes watercolor's transparency to achieve the desired

effect. We will proceed in a Sargent-like methodical manner to discover the process leading to a successful watercolor painting! Beginning watercolorists often find this layering approach frustrating, but only because they haven't envisioned or planned out the layers it takes to achieve the end result. The emphasis will be less on color exercises and discussions about technique and more about leaping right into a painting experience where everything comes into play at once, for it is one's ability to control the "accident" of watercolor that is the real achievement!

Esther Maschio

Having trouble organizing your keepsakes and ephemera Here is a creative solution to the problem. This one-day workshop is about making a book from stuff you can't quite throw away, such as: collage materials, broken watch parts, ticket stubs, pamphlets, very old photos, more. The book binding technique is a simple one - accordion fold concertina - easy to create, and produced as long in length as your supply of ephemera lasts. Page size will be a manageable 7"x5". This will be followed by the creation of a 'portfolio jacket.' Some decorative papers will be available for the covers, but to better personalize your work it is recommended

bringing your own to envelop the finished work. The book board for the jacket will be supplied as part of the \$25 materials fee.

### 507 BOTANICAL DRAWING COMBINING COLOR PENCIL AND WATERCOLOR

Wendy Hollender

Join botanical artist, instructor, and author, Wendy Hollender to learn the techniques outlined in her new book, *The Joy of Botanical Drawing* (Random House). Students will learn how to use grisaille technique for undertones in a neutral color and then how to layer color on top to create depth, using watercolor pencils in combination with dry colored pencils. This technique is very immediate and materials are simple, allowing the artist to work easily in multiple locations while also useful for work in the field. Students will become familiar with the techniques and practice on simple round forms such as fruit, followed by more complex forms such as flowers, combining watercolor pencils and colored pencils.

## CLASSES START APRIL 27

Continuing students in a particular class will find new and engaging projects. Please let us know if you need assistance in selecting the right class for your child.

• Courses need a minimum of 5 students to run. **Please help ensure that our classes run by signing up no later than 10 days prior to the first class.**

• Young adults, 15 years and older, are welcome to enroll in most adult courses with the permission of the instructor.

Due to limited storage and supply space, we are not able to retain artwork created by students in our studio classes. Therefore, it is important that any artwork created in those classes and/or selected for exhibition must be picked up at the conclusion of such events. Failure to do so will result in the disposal of such work.

**106 STORY ART—ART AND LITERATURE** (Ages 4 ½–6)

Children are encouraged to use and explore new materials and art techniques to express imaginative responses to this rich field of literary art.

## ARTIST IN RESIDENCE (AIR)

Art Enrichment • Community Connections • Inter-Disciplinary Learning

SSAC celebrates 17 years of the Artist in Residence (AIR) program for students in grades 3 to 5 from schools in the south shore. This innovative program has introduced thousands of students to enriching art experiences. In the Fall of 2019, we welcomed a new talent, Jess Hurley Scott. She is a contemporary painter of land and seascapes. Students delight in creating artworks in a variety of 2-D and 3-D mediums. During the field trip students are exposed to interdisciplinary educational methods that helps build critical thinking skills, STEAM, and visual art learning objectives.

## FESTIVAL ART STARS

**SSAC** launched **FESTIVAL ART STARS** in **2012** to engage local teens in invitational collaborative art projects, designed for public installation. The program, which unfolds over successive Saturdays, partners teens with several SSAC faculty members on concept development, design, construction and critique of a variety of art projects. Participating students must be nominated by their art teacher, and must commit to being fully present for the six-week immersive work period.

The results are stunning! The Art Center's west-facing exterior wall is lined with large-scale murals completed by our **FESTIVAL ART STARS**, each one showcasing the immense creative talent and potential of teen artists and the impact of visual arts on beautifying the public domain. See for yourself the next time you travel east on Pleasant Street in Cohasset or when you pass the Art Center on the commuter line!

This year's **FESTIVAL ART STARS** are collaborating on "The Clothesline Project", a series of mural-sized, free-floating canvases inspired by German artist Katharina Grosse, that will be installed on clotheslines throughout Cohasset Common during the upcoming 65th annual South Shore Arts Festival. Using acrylic paint—both poured and hand-painted—and various unconventional materials, teens will design each canvas to address the elements and principles of visual art. Notably, "The Clothesline Project" will recapture the spirit of South Shore Art Center's first Festival in 1955 when artists strung clotheslines across Cohasset Common and suspended artworks from them with clothespins; and the project will be a focal point of our 65th anniversary celebrations.

### 2020 Participating Schools include:

Boston College HS	Cohasset	Duxbury
Hull	Norwell	Norwood
Scituate	Silver Lake	Whitman-Hanson

**FESTIVAL ART STARS** is generously supported by individual donors and grants from the local cultural councils of Abington, Braintree, Canton, Cohasset, Hanover, Hingham, Hull, Norwell, Plymouth, Rockland and Scituate—local agencies funded by the Massachusetts Cultural Council, a state agency.

## APPLY TO BE A GALLERY ARTIST

**SOUTH SHORE ART CENTER** offers a special category of membership for exhibiting artists. We invite you to join us in a venture that benefits you in exposure, referrals, and sales while enabling the Art Center to serve the expanding cultural needs of the South Shore and Eastern Massachusetts.

The next Gallery Artist Selection Jury meets April 11, 2019. Drop Off work: Friday, 4/5 10-4, Saturday 4/6 10-4, Sunday 4/7 12-4, Monday 4/8 10-4. Please call Patrice Maye with any questions.

**Application Fee: \$35**

**QUALIFICATIONS FOR MEMBERSHIP:** A Gallery Artist member must be a professional, consistently working in his or her field, with a body of recent work large enough to meet a frequent showing schedule. Gallery Artist exhibitions are open to all genres and media.

**APPLICATION PROCESS:** Applicants submit portfolios to a selection jury meeting in April or October. **Artists should deliver seven or eight originals that form a cohesive body of work.** Work done in a class or workshop is not appropriate for portfolio review. Although framing and pedestals are not mandatory for the critique, a professional presentation is strongly encouraged. In addition, a flash drive or CD of up to twelve images is requested. Images should represent pieces not presented as part of the original works. Applicants should prepare a checklist with artist's name, title and year of work, medium and dimensions and retail value. All files must be clearly named in the following format, ie: **Last-Name\_TitleofWork\_Year\_Medium\_Size**, no spaces or special characters. The jurying is a blind process, but applicants should include a resume and artist statement to be read by a jurying facilitator. **Application fee is \$35.**
